C.N.P. Ski Club Plan Busy Season

The Crows Nest Pass Ski Club held its annual meeting in the ski hut last week, when the following slate of officers was elected to head the club's activities:

President, Reino Kurri.
Secretary-Treasurer, R. B. "Bob" Burgame, and executive members Frank Ploeman of Bellevue, Jack Patterson of Blainmore, John Kostelnik of Bellevue and Peter Huesdens of Hillcrest.

It was reported at the meeting that the present rope hand tow had been extended further up hill by some 1,000 feet which will now give skiers a tow of at least 2,000 feet. It is expected that work on the upper tow will be completed next week and with new ropes having been purchased it is expected that the ropes will be spliced within the next few weeks.

Skiers use the first tow to get to the midway mark on the hill, and if they so desire can get practically to the top of the run by catching on to the new tow.

The club decided that this season the tow would also be run on Saturday afternoons commencing at 1:00 p.m. and would continue during the evening hours if there are enough skiers out to warrant the tow and floodlights being used.

Skiers will again enjoy the privilege of all-day skiing on Sundays with the tow to start running at 10 a.m. and up until evening hours.

A considerable amount of repairs have been done to the club house, including repairs to the roof, new glass in the windows and some interior renovations.

A group of interested persons took time out during several Sunday afternoons and cleared the hill of its growth of summer brush and weeds and the hill is now reported to be in excellent condition.

The club report that the recent snowfall has laid more snow on the hill than the hill has had during the past two seasons, and conditions for skiing are now excellent.

The club have found it necessary to slightly increase the tow rates by 25c per day which allows members full use of the tow for a full day for \$1.25 while non-members will be assessed \$2.00 per day for use of both tows. The members of Lethbridge Ski Club will be granted the same privileges as the members of Crows Nest Pass Ski Club.

An increased amount of interest is being shown by the juniors in the Pass and membership has jumped considerably in this section.

Adults, juniors and newcomers to town will be welcomed to join the club and take part in a season that has much promise of being the best yet by the Ski Club.

Lack of snow during the past few winters has been the partial downfall of the club, but with the hill now being covered with over a foot of heavy snow it is anticipated that a full season is to be enjoyed and the club are very enthusiastic about plans they have for the season.

C.N.P. Festival Syllabus Committee Hold Meeting

A meeting of the Crows Nest Pass Musical Festival Syllabus and Program committee was held in Blainmore last week, when various committees were formed to commence arrangements for the cultural affair.

D. J. Thornton, secretary of the Festival, was appointed to make and complete arrangements for an adjudicator for the Festival.

Dates set for the affair are March 27, 28 and 29. T. J. Costigan was appointed as chairman of the Syllabus and Program committee.

Setting of the piano classes and choice of music for this event was left to Mrs. T. J. Costigan, LRSM, and ATCM, while setting of the string classes and choice of this music will be selected by Roy Up-ton of Coleman; Otto Seifert of Lethbridge, and Mrs. C. Amundsen of Natal, B. C.

The vocal classes will be set by Mrs. Audrey Bonne of Blainmore and Mrs. Mae Robinson of Pincher Creek. Setting of classes and choice of music for the brass and wind class is to be arranged by Frank Edl of Frank, while Alice Buckna of Calgary, and Mrs. Janice Puml-gall of Blainmore, will arrange and set the piano accordion classes.

Chipman Lions Club Start Fund For Bus Tragedy Victims

A fund for the victims of the Lamont school bus disaster has been initiated by the Chipman Lions Club in co-operation with the Alberta Association of School Bus Drivers.

Money collected by the organizations will be used to defray expenses incurred by victims and their families as the result of the tragic collision of a school bus and a freight train near Lamont on November 29, in which 17 students died and 23 were injured.

The fund will be used for the provision of prostheses for the injured, medical expenses that may extend for several years and for funeral expense.

Contributions to the campaign may be sent to the following:

J. M. Hains, secretary, Chipman Lions Club, Chipman, Alta.; J. Dubuc, secretary, Alberta Association of School Bus Drivers, Vegreville or to The Canadian Bank of Commerce, Lamont.

Cheques may be made payable to the Chipman Lions Benefit Fund.

Coleman Vicary Mine Idle

The Vicary mine of the Coleman Collieries has not worked during the past week due to transportation problems.

The company reports that as soon as confirmation is received by the coal company advising that a ship is available for transportation of coal to Japanese steel mills, work at Vicary mine will resume.

The coal is shipped from Coleman to Port Moody by rail and from the coast to Japan by boat.

The temporary shut-down of the mine affects some 150 mineworkers. It is not expected that the shortage of ships will last for a great period of time.

Elks Install Officers

The Coleman Elks Lodge held its regular meeting last week when a new slate of officers for the coming year were installed in office.

Conducting the impressive installations was District Deputy Grand Exalted Ruler Ron Tibbey of Port Macleod, assisted by Bro. Jim Coultis and pianist Bert Kingston, and the Port Macleod drill team. Bro. A. Krywolt acted as secretary.

Installed to office were Exalted Ruler Glen Poulton; Past Exalted Ruler, George Taggart; Leading Knight, D. Skinner; Loyal Knight, Ray Taggart; Lecturing Knight, Robert Findlay; Treasurer, Clarence Clarke; Secretary, Jack M. Rush-ton; Historian, Steve Luska; Chaplain, Richard Tiffin; Esquire, Fred Puchko; Inner Guard, John Ostash; Tyler, Mike Tymeshew, and Trustees, Joe Krywolt, Henry Zak, Jr. and Harold Nelson.

At the close of the ceremonies Past Exalted Ruler Henry Zak, Jr. called upon Immediate Past Exalted Ruler, George Taggart, and presented him with his Past Exalted Ruler Jewel. A social evening was then held.

New TV Service For Pass Area

The Canadian Broadcasting Corporation and Mr. N. Bottrell of CJLT-TV, Lethbridge, are working closely together and every effort is being made through present studies and arrangements to arrive at the most adequate TV service for the entire Crows Nest Pass area.

My understanding is that there are many technical difficulties for the establishment of adequate relay transmitters and the construction of these must wait until the snow goes off next spring.

This is a new development for the Crows Nest Pass, and I want to thank the Town Councils and individuals who have written to me from Coleman, Blainmore, Frank, Hillcrest and Bellevue, urging me to act on their behalf to the end of developing plans for an improved TV service.

This now has been accomplished and unless unforeseen difficulties arise, the people of the Crows Nest Pass should be enjoying their new TV service by next summer.

Yours sincerely,
Lawrence E. Kindt, M.P.,
Macleod Constituency.

Lassie's Pal Gets TB Demonstration

Lassie, star of television, looks on as TV pal Joe Provost gets a demonstration of the tuberculosis test to determine if the TB germ is present in his system. Demonstrating the test is Dr. Hyman W. Gerson, (right) Chief Physician, Chest Service, Los Angeles, (left) County Hospital. Looking on with his wife, Floyd M. Feldman, Director of Research, National Tuberculosis Association. Christmas Eve and in discovering a new case of TB.

Miners' Strike Is Averted

SIGN CONTRACT

Western Canadian coal operators have honored a conciliation board award and have thus averted a crippling strike for a reviving industry.

Following four days of all-out negotiations between the members of the Coal Operators' Association and District 18, United Mine Workers of America (U.M.W.) announced recently the signing of a new two-year agreement.

The work agreement, affecting 1600 men in five Alberta and British Columbia coal mines, is retroactive to July 3, 1960 and expires July 2, 1962. It provides a pay increase of five cents per hour for the 1960-61 term and another five cents an hour increase for the 1961-62 term.

William Whitlatch, managing director of the Coal Operators' Association, termed fringe benefits included in the agreement as inconsequential. All negotiations between the coal operators and District 18 were carried out during closed meetings in Calgary.

Companies involved in the signing are the Crows Nest Pass Coal Company of Michel, B. C.; West Canadian Collieries of Blainmore; Coleman Collieries of Coleman; the Lethbridge Collieries of Lethbridge; and Cannore Mines Ltd., Cannore.

Jet Breaks Sound Barrier

Residents in the Pass towns were quaking about a dull boom that was heard all over the district just shortly before 2:00 p.m. Wednesday of last week.

A jet plane passing over the area and making a curve in the sky, broke the sound barrier and as a result the boom was heard through the entire Pass area.

Some report dishes shook in cupboards and other stated windows in their homes rattled. No reports of damage have been received. Many persons here thought for some time the boom was probably caused by a dynamite blast set off by pipeline workers south of the Pass.

A similar incident occurred in the Pass about a year ago when some north-bound American jets passed over the area late at night and broke the sound barrier.

Many residents in Coleman checked their basement furnaces, as many thought the coal-fired units had blown up.

Fireman Plan Christmas Party

The Coleman Fire Brigade has announced this week that the annual Christmas tree party for members' children will be held in the Coleman Fireman's Club Room at 1 p.m. on Sunday, December 18.

All firemen's children are invited to attend and enjoy the party as arrangements have been made for a visit from Santa. A party, movies and other entertainment will comprise the afternoon planned for the young people.

Hotel Coleman Cafe To Open

Work is progressing very rapidly this week on the premises of the Hotel Coleman Cafe which is being completely rebuilt by Jack Oetash, proprietor of the hotel.

The rear section and kitchen part of the former cafe has been completely remodelled and now forms the ladies and escorts section of the Hotel Coleman.

A side entrance on the east portion of the building has been added and the new part of the hotel has been completely refurnished in soft pastel colors with colored fluorescent lighting.

A new addition to the beverage rooms has included linoleum on the floors and mirrors, 18 inches high, completely surround the walls at about a five foot level.

All new type tables and the latest in easy chairs have been placed in the room which can seat about 30 couples. A new ladies' powder room has also been added to the premises. The beverage room is separated from the main section by a five foot high wall constructed of translucent plastic topped with planter tanks featuring various types of plants.

The new lunch counter that is being re-decorated on the south section of the hotel will feature 32 stools around a horse-shoe type counter, several booths and a family table.

The plans call for soft pastel colors on the walls, fluorescent lighting and other modern features.

The cafe will be operated by Nellie Symank and will be open from 6 a.m. to 1:30 a.m. daily in order to cater to bus and miner trade.

It is expected that the cafe will be opened during the next week.

To Spend Christmas In Homeland

Mr. and Mrs. Louis Bubniak of Coleman will leave town on December 18th to spend a two month holiday visiting in their homeland of Czechoslovakia.

The couple will fly by jet via the Polar Route through Amsterdam to Czechoslovakia, and they will visit with Mr. Bubniak's brother Andrew and Mrs. Bubniak's brother and two sisters and other relatives and old friends in the Tatra mountains, a world famous tourist centre.

The holiday will mark Mr. and Mrs. Bubniak's first return to their homeland in 35 years and the couple plan to spend Christmas with their relatives. Mrs. Bubniak operates the Satellite Grocery Store in Coleman.

Christmas Party Held December 1

The Senior Ladies Group of St. Paul's United Church held their annual Christmas party on December 1st at the manse.

Mrs. J. Rogers, president of the group, gave an address of welcome and hoped all would have a pleasant evening.

Contests and games were enjoyed. Exchange of Christmas gifts took place after which a delectable lunch was served by Mesdames M. McKinnon, J. Kerr, J. Owen, H. deLew and J. Rogers.

Local Man Appointed Agent For 'Toastmaster'

Mr. Ron Crippen, Jr., of Coleman has been appointed agent for Canadian Bakeries for Coleman and district.

Mr. Crippen has purchased the familiar "Toastmaster" truck and hopes that the service he is able to give will be of great help to Coleman residents.

He states that this is a business the same as a store and that the profits stay right here in town, and that he is not an employee.

He feels that this way a better service can be given to the many customers "as I must make my own salary."

Ron has resided in Coleman for 11 years and attended the Coleman schools. He feels that Coleman has a good future and hopes that many of the young fellows of Coleman will get a chance at opportunities here the same as he did.

Chimney Fire In Carbondale

Coleman Volunteer Fire Brigade were called to action on Wednesday afternoon last to put out a chimney fire that started in the home of Roy Gingras in Carbondale West Coleman.

Prompt action on the part of the brigade resulted in the fire being quickly put out with only minor damage to the roof. The home is insured.

M.D. Tag Day Is Successful

The Coleman Volunteer Fire Brigade report having held a very successful tag day in Coleman on Friday, November 25th, when sale of tags realized a total of approximately \$75.00.

Proceeds from the sale of tags is in support of the Muscular Dystrophy campaign being sponsored by the Coleman Fire Brigade.

The brigade have set up canisters in Blainmore and Coleman this year, and one has been set up at Nelson's Garage in Pincher Creek. One canister that was full at Nelson's Garage was stolen by vandals earlier this month.

The canisters will be left up in the business houses until December 31st, when firemen will collect them and turn the proceeds over to headquarters.

Bowling News

Following are bowling results for week of November 28 to December 1:

WOMEN—
M. Kubica, 198, high average
I. MacFarlane, 648, high three
I. MacFarlane, 263, high score

MEN—
F. Berlin, 213, high average
W. Doublin, 624, high three
W. Doublin, 238, high score

200 or better—
S. Bubniak 213, I. MacFarlane 263,
L. Quarm 234, A. Panek 248, S. Dunford 217, M. Kubica 228, F. Berlin 233, A. Teregatto 228, M. Joseph 233, W. Doublin 238, M. Bliesh 210, J. Duncan 201, J. MacDonald 213, J. Loass 227, S. Williams 210, F. Rodnyak 221, G. Rodnyak 224, L. Steiner 202, R. Sloman 229

The Coleman 1st Scout Troop, with Scoutmaster Mel Dunford and Fred MacLeod enjoyed a winter outing on Saturday, December 3. Tobogganing was enjoyed on the hills of the former Antel Ranch, north of Coleman.

Hot dogs, cooked on an open fire satisfied the appetites and prepared the boys for a football game in the snow, which climaxed the day's events for the 35 boys present.

United Church News

The C.G.I.T. group will present their annual Vesper Service with Candle Lighting next Sunday, December 11 at 7 p.m.

Everyone is invited to attend and join with the girls in carol singing. Lunch will be served by the C.G.I.T. members at the close of the meeting.

Monday, December 12 at 7 p.m. the annual Sunday School concert under the direction of Supr. Frances Bond, all parents are urged to attend.

Gas Line Work Is Progressing

Work on the Alberta section of the Alberta Gas Trunk Line to the United States is making good progress as heavy earth moving equipment is bulldozing its way through the Crows Nest Pass.

Some one hundred and twelve and a half miles of 36 inch pipeline is to be laid and Majestic Construction is doing the right-of-way clearance job and trenching work on this leg of the pipeline.

Canadian Bechtel Limited are the project engineers for the gas line that is already boosting the economy of this region.

The pipeline groundwork through the Pass has started on the Alberta-British Columbia border and is moving eastward through Phillips Pass north of No. Three Highway. Much work has already been done by the heavy D9 caterpillar tractor with Kelly ripper used for tearing away at rock ledges and a number of other D8 caterpillars.

Crews of drillers are following up the men who have cut away heavy timber on the pipeline right-of-way.

These drillers and crews, working under Walter Lewis, prepare and blast rocky ledges of mountain to facilitate the job for the cats that level off the grounds after blasting.

Last Friday the biggest blast of dynamite yet fired on the project was shot during the early afternoon when 1500 pounds of powder, tamped in approximately 1800 holes, lifted away a 1500 foot long ledge containing some 3500 yards of solid rock.

The delayed shots fired in relay were so precisely planned that high tension power poles and power lines, less than ten feet away from the blast, were not touched. In order to drill the holes for the powder the drilling crews are assisted by caterpillars equipped with large booms some 60 feet high which rigged with pulleys and cables, lifted the large drills up on the side of the mountain ledges, where the men adjust the drills to cut into the rock ledges. The holes, when drilled, vary in depth from four to 12 feet and some four feet of powder is put into the holes which are then tamped with sand.

After the grounds are levelled off by the cats large North West shovels scoop away the earth for a trench to bury the 36 inch pipeline. The wrapped pipe is buried beneath 40 inches of earth but where solid rock is encountered regulation permits the line to be covered by 20 inches of fill.

One mile of trench has already been dug and work so far has progressed very favorably but will slow up when the crews reach the solid rock areas south and east of Blainmore.

Meanwhile advance crews of workers with power saws are cutting away the 100 foot wide strip of right-of-way and timber is also being trimmed and piled for use and sale while the trimmed branches and brush is being burned by another crew.

Meanwhile advance crews of workers with power saws are cutting away the 100 foot wide strip of right-of-way and timber is also being trimmed and piled for use and sale while the trimmed branches and brush is being burned by another crew.

Sewer System Being Studied

A Coleman Board of Trade committee including Jack Ostash, Dr. Emil Aiello and Aldo Montalbetti, have during the past few weeks, been making a survey of the town of Coleman with regards to the possible installation of a sewer system to serve the town of Coleman.

According to Mr. Oetash, who heads the committee, well over 80 per cent of the persons so far contacted favor the idea of such a system. The matter has been taken up with the Coleman town council who are looking into the possibility of such a project.

The possibility of laying sewer pipe and gas pipe together to cut expenses is also being mullied over by the committee.

Some business houses along the Coleman main street have encountered a number of problems for some time now regarding construction of septic tanks and their location. It has been pointed out that grounds all around town are becoming saturated and septic tanks that are not too satisfactory, hence the formation of the Sewer committee.

In 1959 wheat accounted for half of Canada's exports of \$130,000,000 to Japan.

SAFE DRIVING WEEK...

DECEMBER 1st to 7th

The R.C.M. Police request the co-operation and assistance of all citizens during Safe Driving Week - December 1st to December 7th, 1960, inclusive. They appeal to those apathetic motorists and pedestrians who refuse to heed the advice and pleas for safe driving and safe walking or to believe that such advice is directed towards them. These persons can and do make mistakes which result in traffic deaths and injuries.

From January 1st to September 30th, 1960 in the Alberta areas policed by the R.C.M. Police 147 accidents occurred with 180 persons being killed. Of these accidents 72 or 50 per cent involved only one vehicle and all of these accidents were preventable. There are still far too many single car accidents caused by inattentive driving, poor driving habits and too much speed for road conditions and the curves. The number of rear-end collisions is growing, which again is caused by inattention on the part of the drivers.

Fifteen pedestrians were killed in this period, which is an increase from the total figure for 1959 of 12 pedestrians killed, showing an appreciable increase in this type of death in the first nine months of 1960. Eighty-seven of the accidents occurred in the daylight hours with 60 occurring in the dark hours. As the dark winter months are now with us it is expected that percentage of accidents by night will increase. Five persons were killed while operating tractors on the highway. Tractor operators must appreciate that the tractor is a dangerous vehicle to operate on the highways, particularly at night.

All drivers are requested to check on their lighting and other equipment regularly. Make it a habit.

Police enforcement activities will be increased in this Safe Driving Week and all citizens could assist by having an accident-free week.

- BE ALERT AND STAY ALIVE -

Alberta Firemen's Competitions, 1960

The Fire Commissioners' office of the Provincial Secretary's department co-operated with fire departments in widely separated areas in the province where firemen's competitions were held during the summer months.

The Fire Commissioner's office, acting as a co-ordinating agency, registered district competitions so there would be no conflict in times. The plan also enabled the Fire Commissioner's officers to visit each of the competitions, to assist in the timing of the events and to serve as judges. The competitions depend upon a host fire department and the support of the municipality, city, town or village, at which the competition is held.

The interest in these competitions is maintained at a very high level. The following summary will give a general idea of the extent of the activity. It does not include the names of all the fire departments taking part.

(Legend: 1st column, date; 2nd column, place; 3rd column, number of teams entered; 4th column, the winning team)

June 29, Beaverlodge, 13, Beaverlodge.
July 1, Coleman, 13, Kimberley, B. C.
July 6, Two Hills, 14, Two Hills.
July 20, Red Deer, 18, Red Deer.
August 20, Bowness, 14, Bowness No. 2.

September 5, Grande Prairie, 8, Beaverlodge.
The Murray Bedard Memorial Shield was presented to the fire department producing the winning team and individual prizes were given to the team members.

At Lethbridge, Beaverlodge and Red Deer ladies' teams were entered in a special ladies' competition.

The first five competitions were hose coupling and hose replacing contests and the proficiency shield was given to the team winning the main competition event. There were additional firemen events at the Two Hills competition and a popular event is the challenge water

fight, open to all teams.

The Grande Prairie competition was a hose laying competition with use of a fire truck. This competition was held this year at Grande Prairie to carry on the tradition of the hose laying championships that have in former years always been held at Calgary.

The hose laying competitions serve as an added item of interest for fire departments in their year-round programs and have also served to keep before the public at large, the activities and work of fire departments. Winning a competition involves a great deal of training and skill, of the same type that firemen employ protecting lives and property in the far-flung communities throughout Alberta.

Keep this out of Canada

It is most devoutly to be hoped, says The Financial Post, that Canada does not adopt TV debate as a method of selecting its political leaders.

That the leadership of the free world should be to such an extent determined by this dreadful device is quite appalling.

Kennedy and Nixon are both providing top-notch entertainment.

They are both top-notch debaters. They both have quite remarkable memories. They both have fast minds and glib tongues.

The trouble of course is that these are not qualities which have much if anything to do with the quality of the men, with their real understanding of affairs, with their judgment or with their real wisdom.

Already the miseries of public life are great. But to let it become established that all candidates for senior office must expose themselves to the tawdry spectacle of a TV debate will mean that many very able people who could probably serve their country well will totally refuse to participate.

In Canada the average length of an individual hospital stay in any given year is a trifle more than 10 days.

Winter Employment

According to the latest published figures, there were 336,000 persons

listed as unemployed in Canada, and these were confined mostly to a few large cities. Each year about 300,000 new workers enter the labor force in Canada, and new jobs must be found. In the Macleod rid-

ing, there should be no one out of work. The Crow's Nest Pass is booming, and the Winter Work program is now taking shape, where the federal government pays 50 per cent of the labor bill, and work

projects are undertaken by towns, municipalities and counties.

Unemployment figures are influenced to some extent by the abuse of unemployment insurance.

Thousands of workers, when changing jobs go on unemployment insurance, and are in no hurry to find another position. Some are registered as "unemployed" and are counted in the statistics, but refuse to take a job as long as their stamps last. Therefore, unemployment figures must be used with caution and some understanding.

Seasonal unemployment during the winter months occurs every year and this is nothing new. A few years ago, when the labor force was much smaller than it is today and the Liberal party was in power, there were well over a million unemployed. At Fort Macleod on October 28th, the Hon. Paul Martin talked about unemployment and followed his usual line of "spreading gloom".

In the House of Commons, he also has the habit of pulling figures out of a hat when they are needed to serve his purpose. This source for figures is referred to as the "Martin Bureau of Statistics".

With a growing labor force in Canada and present world conditions there is bound to be some unemployment this winter, and it may even reach a figure as high as it did during the former Liberal administration unless all levels of government work together and are sympathetic towards starting new and worthwhile projects which will provide winter employment.

This letter is for the purpose of encouraging towns, municipalities, counties, and also individuals who employ labor, to take another look and do everything possible to start projects, if it is anticipated that there will be people out of work and in need of jobs this coming winter in their communities.

Lawrence E. Kindt, M.P.
Macleod Constituency.

Guard your health

Need a Vacation?

Every worker needs a complete rest and change at least once a year to give a break from work and routine, plus a change of air, scenery, food and activities.

Executives, white collar people or manual workers who just don't bother to take time off for a holiday are doing themselves a disservice. For those who cannot afford to take a vacation away from home should at least try to spend some time out-of-doors.

Picnics outside the city limits can be a pleasant change from the house.

Some Need The Foundation

There's always the person who would like to gain a few pounds. Canada's Food Rules should be the basic diet and from this she may build up with a lot of the things forbidden to the overweight.

Whole milk with even a little cream is permissible.

Between meals, so long as she doesn't spoil her appetite for regular meals, she may take light snacks including bananas and apples.

Save These Eyes

Flying particles cause most of the industrial accidents affecting the eyes. In most cases the accident could have been avoided had the worker taken proper precautions, and worn the advisable safety goggles and other safety gadgets have been developed as a result of study by experts of the causes of accidents and the best means of preventing injury.

Anyone whose work entails danger to the eyes should wear whatever protective devices the safety people advise. Any injury should always be reported to the plant doctor or health unit personnel.

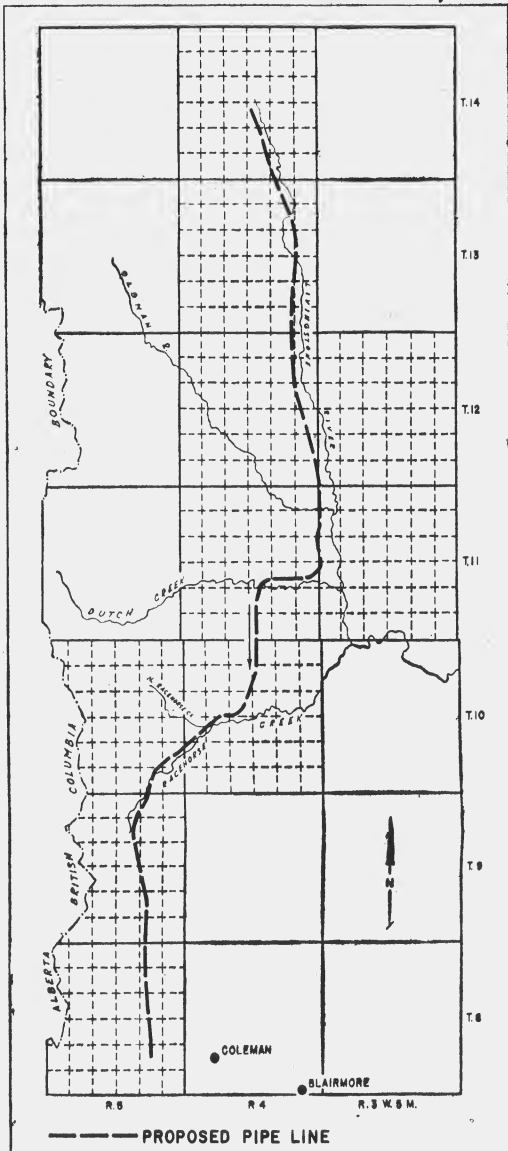

Lunch Hour Athlete

People who work at a sedentary job sitting for long periods, should not settle down during the lunch period to read or play cards.

Even if only for ten minutes they should go outdoors and walk.

These people would benefit from walking part way home or to work instead of riding in a bus.

NOTICE UNDER THE PIPE LINE ACT, 1958

TAKE NOTICE that Saratoga Processing Company Limited has made application to the Department of Mines and Minerals for a permit to construct the following pipe line for the transmission of natural gas:

A 16-inch gas line from a point in Sec. 15, Twp. 14, Rge. 4, W. 5th to a point in Sec. 11, Twp. 8, Rge. 5, W. 5th.

as indicated on the above plan.

Any objection must be filed in writing with the Deputy Minister of Mines and Minerals, Natural Resources Building, Edmonton, Alberta, on or before the 28th day of December, 1960.

ATTENTION

Owners and Operators of Mobile Equipment

Effective JANUARY 1st, 1961, all mobile equipment coming within the definitions quoted below is again subject to licensing. Inspectors are constantly in the field checking all such mobile equipment. Provision is made for the imposition of a fine and possible impoundment of equipment where a violation of the Act occurs.

The following definitions are taken from the Mobile Equipment Licensing Act:

"MOBILE EQUIPMENT"

- (I) means machinery or equipment capable of being moved to its place of use under its own power or by being towed, pulled or carried and not intended to be affixed to land, and
- (II) includes equipment used for the purposes of seismographic exploration and without restricting the generality of the foregoing, includes
 - (a) seismographic recording equipment and all appurtenances thereto;
 - (b) conductor cables and cable reels, geophones, amplifiers and cameras;
 - (c) explosive and detonating equipment;
 - (d) drilling units and all the component parts and appurtenances thereof; and
 - (e) water tanks and pumping equipment, but
- (III) does not include
 - (a) vehicles licensed under the Vehicles and Highway Traffic Act, or The Public Service Vehicles Act, exclusive of mounted equipment on such vehicles; and
 - (b) equipment, other than vehicle mounted equipment, used to drill a gas or oil well;

"MUNICIPALITY" means a town, village, municipal district, county, improvement district, special area, metis improvement district or forest reserve;

"OWNER" includes a person renting mobile equipment or having the exclusive use thereof under a rental agreement or otherwise.

NOTE:

Mobile Equipment having an original list price of less than \$2,000.00 does not require a license under this Act. A copy of the Mobile Equipment Licensing Act may be obtained upon payment of ten cents from the Office of the Queen's Printer, 10255 - 104th Street, Edmonton, Alberta.

Address all inquiries regarding MOBILE EQUIPMENT LICENSES to DEPARTMENT OF MUNICIPAL AFFAIRS, Edmonton. Licenses are also available at Department of Municipal Office at Medicine Hat, Lethbridge, Calgary, Rocky Mountain House, Red Deer, Edmonton, Evansburg, Bonnyville, Lac La Poudre, Westlock, High Prairie, Peace River, Spirit River, Grande Prairie and Drumheller and the Special Areas Offices at Hanna, Oyen and Camrose.

ATTENTION TV OWNERS!

For best consistent television reception every set more than ten miles from a TV station should have an outside antenna.

Existing antennae will not necessarily give good reception on all channels.

Multiple channel antennae are readily available at low cost. Call your TV service man now and insure trouble free reception for the winter season.

Channel 4's test pattern is shown from 1:00 to 3:00 p.m. Monday through Friday to enable service men and set owners to adjust their sets.

YOU SHOULD HAVE SEEN THE ONE THAT GOT AWAY

In the beginning it was a question of who ate whom. For a while it must have been tough and go whether man went fishing or fish went manning. Looking around we assume man won out.

At first man competed with earth's other creatures—today men compete with other men to develop nature's energy sources. In the process our standard of living has sky-rocketed.

Competition has helped Canadians achieve one of the world's highest living standards. Take the way it works in the oil business —Imperial Oil and hundreds of other companies compete to supply Canadians with oil. As a result, oil is available at reasonable prices wherever it is needed —and Canadians have turned to oil for more than half their energy needs.

Esso IMPERIAL OIL LIMITED
...for 80 years Canada's leading supplier of energy

IN THE MATTER OF THE

and
IN THE MATTER OF ALBERTA
NATURAL GAS COMPANY
N-O-T-I-C-E

ALBERTA NATURAL GAS COMPANY, a body corporate having its head office in Canada at the City of Calgary, in the Province of Alberta,
HEREBY GIVES NOTICE to the owners and to all persons having any interest in the lands situate in the Province of Alberta being more particularly known and described as:

Fractional South East Quarter (S.E. 1/4), Section Eighteen (18), Township Eight (8), Range Five (5), West of the Fifth Meridian (W5), in the South Alberta Land Registration District;

that on the 29th day of November, 1960, under No. 5101 I.B. it deposited in the Land Titles Office in the City of Calgary in the Province of Alberta a copy of a plan, profile and book of reference approved by the National Energy Board and duly certified by the Secretary of the said Board, covering a section or part of its proposed pipeline which is to pass through the said lands.
DATED this 1st day of December, 1960.

ALBERTA NATURAL GAS COMPANY,
By: CANADIAN BECHTEL LIMITED, Agent,
P.O. Box 1240,
Cranbrook, B.C.

NOTICE

The public, and especially clients of the late S. G. BANNAN, Barrister & Solicitor, of Blairmore, are advised that MESSRS. CARSWELL, TURCOTT & LEVINE, Barristers and Solicitors, of Pincher Creek, will continue Mr. Bannan's practice and will have the files and documents relating thereto.

For the time being and until further notice, Mr. G. A. Turcott and Mr. L. B. Levine may be consulted at the late Mr. Bannan's office at Blairmore, on Saturdays during normal business hours, commencing Saturday, December 3rd, 1960.

Notice To Creditors and Claimants

In the Estate of John Foster, late of Coleman, in the Province of Alberta, who died on the 16th day of September, 1960. Take notice that all persons having claims upon the estate of the above named must file with the undersigned by the 11th day of January, 1961, a full statement of their claims and of securities held by them.

THOMAS J. COSTIGAN,
Solicitor for the
Administrator,
Blairmore, Alberta

Waterton Contract

Ottawa, Ont. — A \$3,565,000 contract to build the Waterton River dam in southern Alberta, has been awarded to a joint venture comprising Emil Anderson Construction Co. Ltd., Square M Construction Limited and Coleman Collieries Ltd. of Edmonton, Agriculture Minister Alvin Hamilton announced recently.

The winning tender was the lowest of nine, which ranged as high as \$5,277,390.

Under the contract, an earth embankment about half a mile long and 175 feet high above the river bed will be constructed three and a half miles northwest of Hillspring near Cardston.

It will provide a reservoir to augment the supply for the St. Mary Irrigation Project which presently taps the St. Mary and Belly Rivers, and it will add 200,000 acres to the irrigable area.

The total of half a million acres which can be supplied with water from the finished project will then equal the irrigation potential of the South Saskatchewan River dam also under construction in the neighboring province of Saskatchewan.

The Waterton Contract calls for the building of a reinforced concrete access shaft for the diversion tunnel and portions of the dyke in the spillway and outlet structure areas, besides the main embankment.

The diversion tunnel to carry the main flow of the Waterton during construction of the dam has already been built. It is approximately 1200 feet long and 20 feet in diameter.

A four and a half mile long canal with a capacity of 2,000 cubic feet per second will have to be built to carry the water stored in the new Waterton reservoir to the Belly River and so link with the St. Mary Reservoir. Bids have not yet been called for excavation of this canal.

The dam contract will be carried out under the supervision of the Prairie Farm Rehabilitation Administration attached to the Canada Department of Agriculture. PFRA which is also responsible for the South Saskatchewan River dam, has been associated with the St. Mary Irrigation project for 20 years, being called in upon expansion of the old system became necessary. The federal government has since built the St. Mary River dam and a diversion canal bringing the Belly River into the system. The Waterton dam and canal are the third and final stage envisaged. The provincial government assumed the responsibility of building the irrigation distribution system and the smaller reservoirs it contained besides general irrigation development and settlement policies.

It is hoped that the dam will provide enough additional water to meet the increased demands from the older sections of the original scheme besides extending benefits to new lands in the area. The contract may take three years to complete and, with the building of the dam, will represent the fullest utilization of the waters of the three international streams concerned.

The dam is 60 miles southwest of Lethbridge.

East Berlin only cold spot in European trip

From the warmth of Spain and Italy to the chill atmosphere of East Berlin, Miss Muriel Louise Elmes of Nelson and Crescon has spent the summer months touring Europe and enjoying the cuisine, personalities and pastimes peculiar to various parts of the continent.

Starting from Vancouver with friends from Crescon — Miss Joyce Robertson, Miss Sharon Mephim, Gordon Kring and Gordon Tedrich — Miss Elmes travelled by plane, chartered by B. C. teachers, to Prestwick, Scotland, touching down for an interesting short stop at Greenland en route.

In Prestwick, other passengers went their separate ways and Miss Elmes and friends travelled to Belfast, Ireland, and London. Miss Mephim went on to Berlin, where she visited her brother.

From London they journeyed to Paris and then down to Madrid and Barcelona in Spain, where they attended a bull fight, among other things.

From Spain they skirted the Mediterranean to Monaco and Italy, stopping in Rome, Naples and Genoa, then on to Austria, Salzburg, Heidelberg, Munich, and East and West Berlin in Germany.

West Berlin, Miss Elmes reported, was beautiful. The populace was happy, the atmosphere friendly and the city attractive. Cautioned against a visit to East Berlin, they nevertheless made the crossing and were impressed with the immediate change at the entrance to this area. Passengers who moments before were smiling and relaxed became silent and tense. Guards were everywhere and the view of the city was bleak. The travellers spent only four hours in East Berlin then boarded a plane for Copenhagen. They stopped in Oslo, Amsterdam and Luxembourg.

In Luxembourg, they visited the sister of J. P. Rivers of Nelson, Miss Cetty Rivers, who is directress of the Red Cross for Luxembourg, also other relatives of Mr. Rivers.

Back in London, they attended "My Fair Lady" but missed seeing the ballet for fear of missing their plane in Prestwick.

Miss Elmes arrived back in Nelson last Thursday and is now in Crescon, after spending a few days with her parents, Mr. and Mrs. W. H. Elmes, 609 Fourth Street.

Buy Safe Fire Extinguishers

About a month ago a 15-month-old baby boy of the Wayne district died in his crib as a result of breathing the vapors from the contents of a broken vaporizing-liquid, bomb-type fire extinguisher. That liquid (carbontetrachloride), is dangerously toxic on vaporizing. There are many accidents on record involving poisoning and death to persons exposed to the toxic carbontetrachloride, used as a fire extinguisher agent.

Because this carbontetrachloride is a toxic fire extinguishing agent, its use should be restricted to installations where there is the least possible chance of humans or animals being exposed to the vapors. Trained personnel who use these extinguishers in industry take careful precautions against inhaling the toxic vapors. Farmers throughout Alberta who have installed these so-called automatic fire bombs in their homes and other farm buildings should be informed about the dangers involved.

"I would advocate removing from dwellings any glass bomb type fire extinguishers. They are dangerous and are of doubtful value as a fire extinguisher in spite of the exaggerated claims of fast talking salesmen," says A. E. Bridges, Alberta Fire Commissioner.

"When you buy a fire extinguisher for the home, buy the water type," says Mr. Bridges. A metal pump tank with two gallons of water in it is a good extinguisher for the home. Farm folk should be alert to the possibility of misrepresentation from the door to door salesman of fire protection equipment. Be sure to buy an approved type extinguisher bearing an inspection label of a recognized testing laboratory.

Extinguishers can be purchased from the nearest licensed dealer. For number and type, always consult your local fire chief or the Provincial Fire Commissioner.

OF MANY THINGS

(By Ambrose Hills)

THE MAGAZINES

I was delighted to see that Mr. Stuart Keate publisher of The Victoria Times, saw fit to appear before the Royal Commission on Publications to say a word in favor of American magazines, defending both Time and Reader's Digest.

It is agreed that Canadian magazines are having a tough time. What is needed, however is not some form of restriction against the fine American publications, but rather encouragement for the Canadian ones. I believe this will come about as a result of the Commission hearings — but not because of any laws that result from such hearings.

What is needed is simply more appreciation, by Canadians, of their own magazines. Every year, as Christmas gifts, I send as many subscriptions as I can afford to friends and relatives — subscriptions to Canadian magazines I feel have merit. If others who feel concerned about the welfare of the Canadian magazines would do likewise, it would not be too long before they could total up fairly good balance sheets.

What Mr. Keate was worried about no doubt, was the possibility that the O'Leary Commission, in an effort to help our own magazines, would exclude the American ones. We certainly don't want to appear to close the door to the culture of a friendly country which has produced so many literary greats — such as

Emerson, Thoreau, Faulkner and Hemingway.

Certainly, the American publishers have been most friendly to Canadian writers. Mr. Keate himself spoke as a Canadian who spent five years writing for Time, Inc., and who has submitted material to Reader's Digest on a freelance basis.

I know, from personal experience, that the American editors and broadcasters are most friendly and receptive to the Canadian writer.

Nevertheless, our own Canadian magazines are the best market for the Canadian writer who wants to deal almost exclusively with his own region and background. Editors at Chatelaine, Weekend, Maclean's, Liberty, Saturday Night, Toronto Star Weekly, etc., as well as those who run the so-called "little" magazines, like Delta, do a great service for Canadian writers, giving them very special encouragement. Inasmuch as these magazines, or some of them, are having difficult times, it would seem reasonable that something be done to help them.

But do we need to damage American publications at the same time? I think not. Instead, let us promote our own and support our own. Surely Canadians would rally to that appeal without resort to legislation!

Should Account For Funds Raised

We have a pet peeve. Groups and organizations are usually co-operative and even anxious for the Journal to publicize their activities in money raising programs, and so long as the intent of such programs

is for civic or public good, the Journal always goes along. But all too frequently, there is a decided lack of co-operation when it comes to telling how much money was raised, or in making a public accounting afterwards.

This is not a universal attitude, since many of the groups make ex-

tra efforts to get such information to us. However, the Journal believes if the public is to be urged to assist in any money raising plan, then the public should be told the full and complete results.

Actually, delays in final totals often occur because of the slowness of members involved turning in their reports. Nevertheless, we believe that final reporting should be carried out with the same dispatch as the preliminary plan drives.

—Lee's Summit Journal.

An autobiography

I've tried to speak the truth in a crisis and his was a crisis for the man who had lost his job and badly needed another.

In a flash of candor, he spoke his autobiography. "If I had ever figured that friends might be useful, I would have cultivated some."

Marriages in Canada have been declining in number since 1957. The 1959 figure—127,000—reflects today the "hungry 30's" when the birth rate was low.

Card of Thanks

The members of the Ukrainian Society wish to thank all who helped to make a wonderful success of their bazaar. A special thanks to the Russian ladies and the ladies from Hillcrest. The winners of the raffle were: 1st. G. Brander of Langdon, 2nd. W. Romantuk, of Lethbridge, 3rd. H. J. Turbis, of Lethbridge, 4th. Mrs. Rinaldi, of Coleman.

For the Bazaar Committee, Pauline Malanchuk

Card of Thanks

I wish to thank Dr. Aiello, the matron and staff of the Crows Nest Pass Municipal Hospital for their kindness to me while a patient in the hospital, also to those who sent gifts and cards. Thank you.

Mrs. G. Derbyshire.

INVEST IN ABERDEEN-ANGUS FOR THEIR XMAS GIFT

Sponsored by Alta. Aberdeen-Angus Assoc.

The parents of a solemn little boy were perturbed at his morbid outlook on life. They were sending him off by train to relatives and told him to write his name and address on a card and put it in his pocket.
The boy did so, beginning "In case of accident, this was Johnny Smith."

The face of service

Calgary Power is more than dams, transmission lines, substations, machinery — Calgary Power is *people*. Through our touring family, the Browns, we have tried to show you some of these people and the facilities they use to provide plentiful, dependable electrical service. We could not possibly show them all because in order to give you the service you need, we have a team over 800 strong! Together, these 800 people make up our "Face of Service". Together, they are Calgary Power Ltd.

All of them, including General Manager A. W. Howard (who is showing Dianne Brown a map of our electrical system), are devoted to providing the *best possible* electrical service throughout 75,000 square miles of Alberta. And that means the best possible electrical service for you.

This goal, worked-for unceasingly by all 800 members of our family, is our contribution to building a Better Alberta.

HAPPY BIRTHDAY

— TO —
Vet's Insurance & Real Estate
TOASTMASTER CONGRATULATES YOU
We are happy to supply you with the PASTRY

Personalities IN THE NEWS

Mr. and Mrs. Steve Penney
were Cranbrook visitors last
week the guests of their daugh-
ter and son-in-law Mr. and
Mrs. Walt Tymchyna.

Mr. J. Owen is confined to
his home this due to illness.

Mrs. J. Derbyshire and Mr.
and Mrs. H. Turner accom-
panied Mr. and Mrs. F.H. Mc-
Kay of Blairmore to Leth-
bridge on Saturday last.

Mrs. Ethel Kostelnik has been em-
ployed with the T. Eaton mail or-
der house at Blairmore.

Mrs. M. E. Cornett visited at Cal-
gary last week.

Henry Zak, jr., suffered a fall last
week and received injuries to his
back.

Miss Marion Ewashen visited at
Calgary last week.

Mr. W. Beck has been ill, and
friends wish him a speedy recovery.

Mr. and Mrs. H. Zak and family,
accompanied by Mr. and Mrs. Ennis
of Blairmore, were Lethbridge visi-
tors last week.

Mr. and Mrs. J. Hanrahan were
Edmonton visitors last week. They
attended a convention for the per-
sonnel of the Department of High-
ways.

Miss Gloria Fraser, employed in
Calgary, was a recent visitor with
her parents.

Mrs. H. W. Clark celebrated her
88th birthday on December 1st.
Many friends called to wish her
many happy returns of the day. The
Journal also extends their good
wishes to Mrs. Clark.

Mrs. G. Derbyshire is convalesc-
ing at her home after being a pa-
tient in the Crows Nest Pass Muni-
cipal Hospital.

Mrs. H. W. Clark left on Monday
to spend the winter months with
her son and daughter-in-law, Mr.
and Mrs. H. Wilton Clark in Cal-
gary, Alberta.

Master Jimmy Hopkins celebrat-
ed his sixth birthday on December
2nd by entertaining a number of
his juvenile friends at the home
of his grandparents, Mr. and Mrs.
J. Hopkins. Games were played af-
ter which a delicious lunch was
served by his mother and grand-
mother. A dainty birthday cake was
served and enjoyed by all.

Successful Tea And Bazaar Held

The Goodwill Women's Associa-
tion of St. Paul's United Church
held a successful bazaar, tea and
bake sale in the church hall on Fri-
day, November 25th.

Tables were decorated in Christ-
mas motif with 25 ladies assisting
at the various tables.

Bingo Winners Are Named

Coleman Elks Lodge held its regu-
lar bingo night Friday evening, Nov-
ember 25th, and although the jack-
pot prize of \$200 cash was not won
in 56 numbers, Joe Zak of Cole-
man was awarded the \$15 consol-
ation prize.

Other winners at the affair were:
Grocery hamper, Mrs. Tuillia, of
Coleman.

End table, Mrs. Phyllis Jones of
Coleman.

Occasional chair and stool, Joe
DePinto of Coleman.

\$18 cash, Vilya Phillips of Cole-
man.

Clock, Mrs. Donnick of Frank.

\$20 cash consolation on the \$100
jackpot, split among Bob Jenkins,
Phyllis Jones, Mrs. Tarabula and
Annie Fleming, all of Coleman.

\$10 cash, L. Austin, Blairmore.

30 gallons gas, split between Hel-
en Neddo and Louise McLeod, of
Coleman.

\$25 cash, Scottie Robson, Bellevue.

\$40 cash, D. Wakuluk, Blairmore.

Transistor radio, Joe Zak.

Grocery hamper, Mrs. Ron Crip-
pen of Coleman.

The next bingo night will be held
in the Elks hall on December 9th,
when a cash jackpot prize of \$200
will be offered for the first black-
out in 57 numbers. All are invited to
attend.

Bridal Shower Is Held

A shower was held recently in
the Catholic hall in honor of Mrs.
E. Hranac (nee Darlene Dancosine).
On entering the hall the honor-
ed guest was presented with a cor-
sage by Mrs. C. Roughhead. The
evening was spent playing whist and
bingo.

The whist honors went to 1st,
Wanda Saloff; 2nd, Mrs. J. Mc-
Gregor, and consolation to Mrs. L.
Schultz.

The door prize went to Mrs. Fer-
uccio DeCecco.

Lunch was served and the hon-
ored guest was presented with many
beautiful and useful gifts for which
she ably thanked all present.

Hostesses for the evening were
Mesdames A. Penney, A. Jones, A.
Roughhead, P. Thompson, S. Tym-
chyna, P. Beddington, M. Kilgan-
non, M. More, C. Maroni, P. Beller,
P. Jenkins E. Campbell, R. Polkins,
K. Park, P. Kostelnik, N. Kinnear,
E. Ledieu, D. Collings and W. Holyk.

Lions Bingo Winners Named

The Coleman Lions Club held its
regular bingo night Wednesday last
and although the jackpot prize was
not won the consolation prize was
split, among Elsie Russell, George
Arlstone, Mitzel Moore and Vilya
Phillips.

Winners of the cash \$10 prizes
were:

Mrs. R. Montalbetti, Aldo Ferrara,
Jean Fields, split, Marie Skinner,
Doris Welsbecker and Paddy Moore;
between Joe Kovalik and Fred Hirst
and Sofie Lepacek and Glen Hamp-
ton.
